

Recycling in your Community

What are the 3 R's of recycling?

What do the 3 R's mean?

Reduce: Using less one-time use items that will end up in the landfill.

Reuse: Using products made of glass, hard plastic, or fabric that can be used more than once.

Recycle: The process of taking glass, plastic, paper, and cardboard and turning them into something new!

Single Use Items

A single use item is something you use once and throw away after. For example, plastic bags and pop cans. Can you name a couple single use items?

Water Bottle

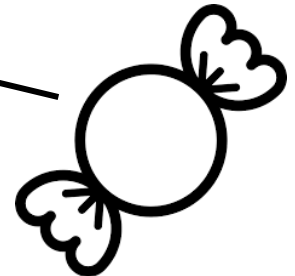

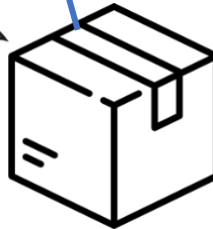

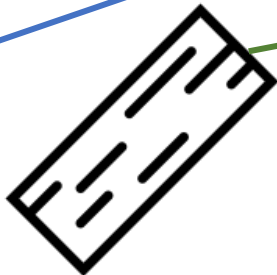

Ziploc Bags

Paper Plate

Garbage

Recycling

Compost

Color in the items and draw a line to which can they go in to!
